

## ZW6620

Portable Multi-function  
Strong Light Lamp

Protection Grade: IP66

### Applications

This product is widely applicable to the mobile illumination for various indoor and outdoor operations, such as patrolling, reparation, accident handling, goods loading and unloading, and subway construction.

### Features

- The lamp head can be turned freely within 90° upward or 45° downward according to the actual needs of illumination. The handle can also be turned within 180° up and down so as to satisfy the demands for various lighting. With small size and light weight, it is easy to be held on the table, by hand, or attached with magnet, or hanged.
- It is made of imported bullet-proof materials with optimized structure design, and the functions will not be affected even if it falls from 1m high place. It is guaranteed for long-term and reliable operation under various harsh conditions.
- It uses 20W super-white HID lighting source, with the brightness two times above 50W halogen bulbs. It adopts the new generation of lithium battery, which is safe and environment friendly.
- The charge is controlled by the intelligent chip of SAMSUNG special charger, with multiple protections.

### Product Data

| Description    | Unit | Value           |
|----------------|------|-----------------|
| Rated voltage  | V    | 14.8            |
| Rated capacity | Ah   | 5               |
| Power of bulb  | W    | 20              |
| Luminous flux  | lm   | 1800            |
| Discharge time | h    | 3               |
| Time of charge | h    | 6 ~ 8           |
| Dimension      | mm   | 151 × 131 × 272 |
| Net weight     | Kg   | 1.9             |

Magnetic attachment

HID lighting source

### Applications

This product is applicable to mobile illumination for power grid repair, crime investigation, patrolling, railway and underground works, as well as for signal communication and position displaying.

### Features

- It uses imported high intensity white LED lighting source, with low energy consumption, and the service life as long as 100,000 hours. The surface of its reflector has undergone high-tech treatment, with high reflection rate. It can shoot as far as 100m, with the visible distance above 5,000m.
- Its shell is made of imported materials, and the functions will not be affected even if it falls from 1m high place.
- The multi-purpose torch can only provide normal illumination, but also can send out signals.
- The lithium battery boasts large capacity, long service life, low discharge rate, economy and environmental protection.
- Its surface has undergone deep anti-slip treatment, with a light and beautiful appearance. It can be carried on the pocket and operated very simply and conveniently.
- The charge is controlled by the intelligent chip inside, with multiple protections.

### Product Data

| Description    | Unit | Value         |
|----------------|------|---------------|
| Rated voltage  | V    | 3.7           |
| Rated capacity | mAh  | 1400          |
| Power of bulb  | W    | 1             |
| Luminous flux  | lm   | 50            |
| Discharge time | h    | ≥6            |
| Time of charge | h    | 5 ~ 7         |
| Dimension      | mm   | φ28 × 130     |
| Package size   | mm   | 62 × 62 × 140 |
| Net weight     | g    | 118           |
| Gross weight   | g    | 198           |
